Description

STEALTHY FLYBRIDGE

This West Australian built vessel was designed for offshore passages where optimum seaworthiness is a must. She cuts a lithe and low profile with a fine entry, reverse sheer in the bow, and aggressive strakes and chines below the waterline to ensure a smooth and fast ride in most offshore conditions, whilst remaining dry and predictable in her handling.

Built in 2001, she has only had two owners, and has a comprehensive service history with even a detailed log book charting her travels and maintenance details. Twin Cummins 370hp diesels spinning 5 bladed props on two inch shafts give her a very comfortable 18-22 knot cruise speed. Twin helm stations boasting electronic controls further add to her appeal.

Twin cabins as well as a convertible salon sofa offer sleeping for at least six, and the large heads, well laid out galley with electric hobs and upgraded entertainment system make sure the interior is comfortable and easy to navigate. The huge flybridge with full clears and a wet bar and fridge takes care of the social entertaining duties.

If you are contemplating a Riviera, Caribbean, Searay, Regal or similar flybridge cruiser in this size range, check out this gorgeous late model Leeder which not has exceptional offshore seakeeping manners and performance, but is economical with very user friendly layout. Contact the best boat brokers in Sydney to arrange a private inspection at a convenient time. We are available 7 days.

Features
